Structured Cabling for

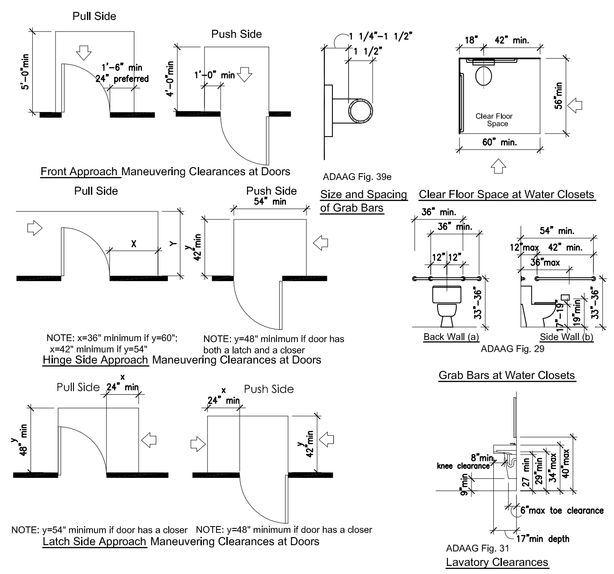
A New Carroll High School for Ozark City Board of Education

Ozark, Alabama

General Notes

1. Contractor and/or subcontractors shall visit property to verify existing conditions. Any discrepancies shall be brought to the attention of the Architect prior to submitting a bid.
2. All work shall conform to the requirements of the latest edition of the International Building Code and of state and local authorities having jurisdiction.
3. All materials and equipment referred to in notes and keynote legends shall be new and furnished and installed under the work of this project unless noted otherwise to be furnished and installed by owner.
4. Contractors and/or subcontractors shall employ skilled workmen to perform all work in accordance with the best standards of work for all categories of work in the project.
5. Contractor and subcontractors shall coordinate their work with all other subcontractors to facilitate a smooth work progression.
6. Contractor and subcontractors shall secure the owner's approval of any substitutions prior to installation. Owner shall supply to Contractor any substitutions in prompt attentiveness to the progression of work.
7. Contractor shall obtain and pay for all required permits and approvals and shall notify and schedule all required inspections and approvals with the various authorities having jurisdiction.
8. Contractor shall provide and maintain suitable protection for all employees and the public and occupants during the course of the work, complying with all applicable job safety regulations.
9. Subcontractors shall remove from the site all debris, rubbish, and other materials resulting from their operations. All such material must be disposed of legally and contractor will be responsible for all fees associated with said removals and disposals. Subcontractor shall maintain the project site in a neat and safe condition at all times.
10. Contractor shall submit all samples and color selections to Architect for approval. All interior samples shall be submitted at one time for a complete selection process. All exterior samples shall be submitted at one time for a complete selection process.
11. Contractor shall verify all dimensions prior to commencing any construction work and shall bring any discrepancies to the attention of the Architect.
12. Proper layout of the site + building is the responsibility of the General Contractor. Site control point shall be discussed with the Architect prior to beginning layout of work. Strategy for building layout shall be discussed w/Architect prior to building layout.

Standard Access Guideline Details



NOTE If General Contractor discovers any variation of these guidelines in the actual design documents, he shall bring such discrepancy to the Architect's attention.
