

Dear OCS Teachers and Staff,

Exciting news! The Alabama State Department of Education recently released a letter grade for all public schools in Alabama. This year, we are proud to announce that our school district received a grade of 84 (B)! We want to take this moment to celebrate the success of our school district and our schools with you! It is important to note that in 2019, Ozark City Schools also received an 84 (B). While we realize we are much more than any one number, this score demonstrates that our district maintained excellence in the face of the pandemic-showing no decline in its overall score despite the challenges associated with the pandemic.

OZARK CITY SCHOOLS
